Overview

In the event of inclement weather, clubs have the ability to close an individual field at a location (venue) rather than having to close the entire location (venue). Although you still have the ability to close a venue which closes all the fields in that location.

This will be a great tool if you have a location where one field drains well and remains playable while others retain moisture creating the need for closure. In order to make this system work properly, you will need to list each individual field for each location (venue) listed for your club; otherwise, you cannot close the venue or individual field.

A venue or a field can only be closed for one day: today, tomorrow and next day (2 days from now). Club officers with administrative rights can only close the venues that are listed as their home fields. Once a field is closed, all coaches of teams that play on that date and the referees scheduled to officiate those games will be notified via email and text messages. Coaches and referees must explicitly update their profile to receive text message from CPYSL.

Once a venue or a field is closed, it will automatically reopen after the designated closed date. The club does not have to manually re-open the field.

A venue may be shared by multiple clubs. If a venue is closed by a club, it is reflected to the other sharing clubs and notification will be sent to the other affected club coaches and assigned referees.

The club officer's name that closed the venue, the date and time when it was closed, and the reason for closing will be recorded.

Adding a venue to your club

- 1) You must login as a club officer to close a venue. Once logged in to your club page click the URL link called "[Click here to Add a Club Venue](#)". Or you can click the button "**Add A Venue**". A page will display a list of fields that you can add to your club. Refer to the image on the right. →

- 2) Browse through the list of venues that have been registered to CPYSL. You can click the letters to list only fields whose fieldname begins with that letter. Use the paging navigation at the bottom of the page to view the next page.

You can also search the name of the venue. For example, "George Park". This will display any field whose fieldname contains "George Park". Refer to the image on the right. →

The screenshot shows the Central Penn Youth Soccer League website. At the top left is the league logo. Below it is a navigation menu with links for Calendar, Schedule, Standings, Scores, WorkList, and Report. A user profile for Wendy C. is visible. The main heading is "List of Club Venue". Below this is a search section with a "Locate by:" label, a list of letters (A-Z) for filtering, and a search box labeled "Search A Word Within Location Name". A yellow banner instructs users to click "Add This Venue" to include a field as a club home field. Below this is a table of venues with columns for Location Name, Street, City, State, County, Type, and Add. The "Add" column contains green "ADD VENUE" buttons, which are highlighted with a red border in the image.
